Chicago Lady Drowned In Busiest Weekend of Year on Chain O' Lakes

FOX LAKE—The busiest water sports weekend to date this season on Lake county's inland waters ended with one drowning and numerous boat collisions and other incidents, the Chain-O-Lakes Water Patrol reported.

In Bluff lake late Sunday, Miss Francine Blumer, 22, of Chicago, drowned while swimming off Carroll's Resort.

The body was recovered by the Antioch Rescue Squad and taken to Strang funeral home in Antioch.

Earlier Sunday, an injured 9-year-old girl was taken to a Fox Lake doctor in record time as two rescue units teamed up on land and water, when the girl, Gale Hoppe of Chicago, cut her foot severely on an underwater object on a beach on Lake Marie. Her father, Victor, flagged down a Chain-O-Lakes Water patrol boat and asked that his daughter be taken to a Fox Lake physician.

En route, Water Patrolmen Harold Busch, Laddie Sosko and Jack Willey, gave first aid and radioed the Fox Lake Rescue squad to meet them with an ambulance at Korpan's landing in Fox Lake.

The entire trip from the scene of the accident to the doctor's office took less than 12 minutes. The girl was treated for loss of blood and shock.

The Chain-O-Lakes Patrol reported three boat collisions, one with considerable property damage, all involving confusion about the right-of-way in passing.

Fortunately, no personal injuries were reported.

In Grass Lake Saturday, Jeff Kopstain, 20, of Hinsdale, beached the 14-foot outboard he was operating to prevent it from sinking, after it split open following a collision with another boat.

The owner of the boat, Dale Messmer, 21, of Downers Grove, was being pulled on skis and leaped clear of the crackup.

The other boat, a 16-foot outboard owned and operated by Jim Fink, 18, Highland Park, was damaged beyond repair, Chain-O-Lakes Water Patrolman Harold Riley said.

However, damages were above the water line and the boat made shore safely. Ken Larson, 10, of Hinsdale, a passenger in the Messmer boat, and Jim Baer, riding in the other boat, were shaken up.

Two boats collided in the channel between Fox and Petite lakes Sunday with minor damage. Operators were David Schimpf, 22, of McHenry, and Emil H. Heenighansen, 37, of Chicago.

Later Sunday in Make Marie, two outboards—one operated by Mel Spohn of Downers Grove, and the other by John Steitz, 20, of Antioch, sideswiped each other.

Water patrolmen who reported the three crashes said that they could have been prevented if all operators had followed the "rules of the road" for passing as specified in the new Illinois Boating News.

X-Ray Unit Will Visit Antioch and Lake Villa

Lake County TB association's mobile x-ray unit will be in Antioch and Lake Villa next week with both visits open to the general public. The first will take place at Williams V-S store at 910 Main street in Antioch from 1 to 6 p.m. Tuesday, July 5.

The IGA Super Market on Grand avenue in Lake Villa will be the scene of the other x-ray unit appearance. This will take place from 2 to 6 p.m. next Wednesday, July 6.

Mrs. William Brook at Antioch 1166 and Delbert Sherwood at Elliot 6-2591 are the persons to contact in their respective communities.

There is no charge for these chest x-rays as they are financed through the annual sale of Christmas seals.

Carnival Scheduled In Antioch July 6-10

The Antioch village parking lot will have quite a workout from carnivals and circuses next week with the announcement this week that the American Legion post and Auxiliary will sponsor a carnival there July 6 to July 10.

Sunday afternoon, July 3, a circus will give two performances under auspices of the Antioch Lions club.

The A-1 Amusement company will provide many of the familiar carnival attractions, including eight rides and 30 concessions. All will be skill games, the Legion post said.

There will be no gambling nor will there be "give away" items.

Antioch Sets Parking Limit

Loading and unloading of vehicles in the village of Antioch on Main street and Lake street will be limited to 15 minutes during the hours of 7 a.m. to 6 p.m. of any day except Sundays.

The hours are from 7 a.m. to 9 p.m. on Fridays.

That is the gist of an ordinance amendment passed by the village board of trustees at a meeting last Friday evening.

The ordinance amendment does not apply to a licensed taxi cab nor to an ambulance or other emergency vehicle and to certain other vehicles engaged in performance of their duties.

The rules as adopted apply to both sides of Main and Lake streets.

Under the same amendments double parking is prohibited.

The amendment provides a fine of not less than \$5 nor more than \$200 for each offense.

Circus to Show Here on Sunday

(See Picture on Page 2)

It will be a gala day in Antioch Sunday, July 3, when the famous Adams and Sells 3-ring circus is in town for two afternoon performances at 2 and 4:30 p.m. on the village parking lot.

The appearance of the circus with its Big Top and Wild Animal Menagerie plus many other attractions is being sponsored by the Antioch Lions club.

All the sights, sounds and thrills of Circus day will be present here starting early Sunday morning and continuing through the afternoon.

The doors to the world's largest free wild animal menagerie will open for the early comers.

Performances under the Big Top will last more than 90 minutes and will feature 30 acts in two rings.

Tickets are on sale in advance at reduced prices through Lions club members and at many business houses throughout the community.

School Band 'Tag Day' Scheduled on Saturday

"Tag Day" sponsored by the Antioch Grade School Band Parents' association to raise money for uniforms, instruments and the like will be held Saturday, July 2, starting about 9 a.m. and continuing to 6 p.m.

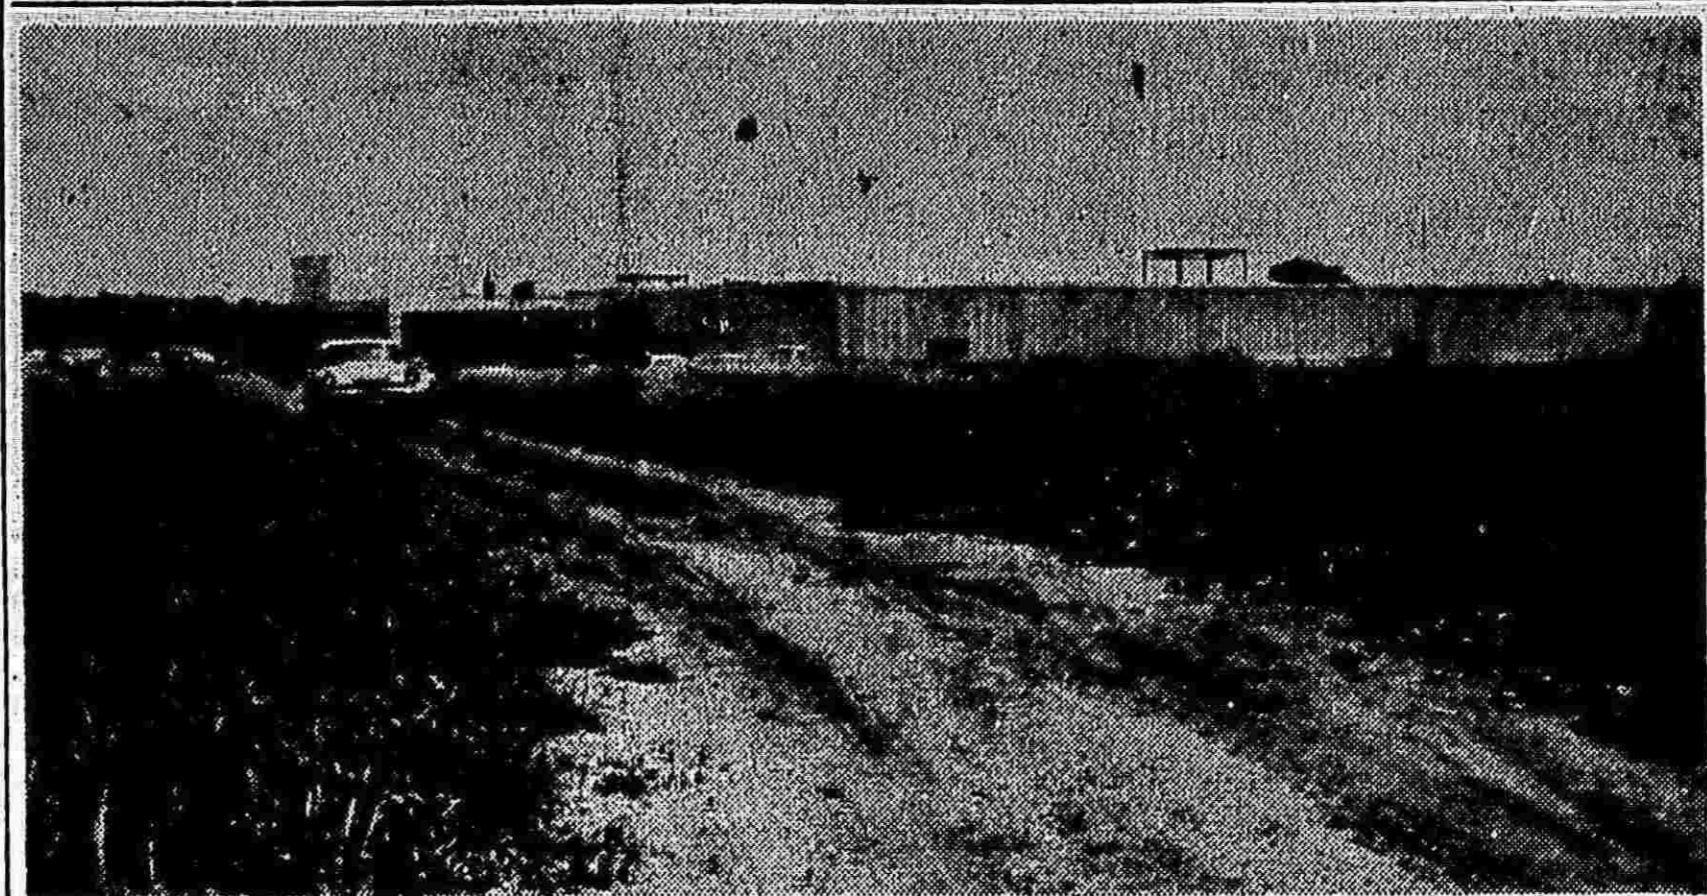

This is the only activity of this kind conducted by the association during the summer months.

Summer rehearsals of the grade school band ended this week, director George Olisar said. They had been held each Tuesday and Friday at the Antioch building. About 75 boys and girls were signed up.

OLD OAKLAND SCHOOL building at the intersection of the Loan Lake and Deep Lake roads near Antioch was rapidly nearing an end late last week when the photographer stopped by to see how its demolition was progressing. Here one side of the old structure is almost gone as is the roof. The interior items had been removed some months ago. Shown in the left background is part of the new Oakland Grade School building. Plans call for the site of the old structure to be used as a part of a playground. (Antioch News photo)

4 New Classrooms and Gym Are Planned at St. Peter's

NEW SPRING GROVE FACTORY being built on the outskirts of the village is shown in this photo taken Monday morning as workmen were putting finishing touches on the one-story structure. Officials thought it would be completed by mid-July. Anywhere from 300 to 400 people will be employed there at first with as many as 1,000 to 1,400 eventually. The building, being built by A. N. May of Richmond, is located just off U. S. highway 12, about a mile west of the center of the village of Spring Grove. This photo shows the south and west or front sides of the building, which has almost no windows.. (Antioch News photo)

Planning, Zoning Program Okayed; Store Building Permit Is Approved

Work was being started this week Wednesday morning on clearing of land between the post office block and the Jewel Food Co. Store on Lake street where a two store building is to be erected.

Equipment and men were at work pulling and cutting down trees and bushes to make way for a structure planned by Julius L. Schwartz of Chicago.

A long-sought program of planning and zoning for the village of Antioch took a big step forward last Friday evening when the village trustees approved money for its share of such program's cost.

A check for \$3,100 has been sent to the Illinois state housing board and this will be matched by federal funds.

The growth of the village, ordin-

ances to allow for this and related subjects will be in the hands of the firm of Evert Kincaid and Associates of Chicago. The ordinances would set up a zoning plan.

A special meeting of the village board last Friday authorized the money after the board's planning committee had approved the payment and urged its approval.

Members of the committee are Edmund F. Vos, E. H. Glenn and Bernard Osmond, all trustees.

An incentive toward zoning was the fact that the village has no ordinance covering this as of now. The village does issue building permits, however.

And such a permit was issued to Julius L. Schwartz of Chicago to erect a two-story room building on Lake street near the Jewel Tea Store parking lot. Rumors have it that a Ben Franklin store would oc-

cupy part of this building.

Earlier this month the board had delayed action on granting such a permit, pointing out that the lot in question has no alley at the rear from which to load and unload merchandise.

This would necessitate, the trustees said, doing this work on Lake street at a busy corner (Broadway).

Attorney Murray Conzelman told the board on behalf of Schwartz that his client wishes to erect the building immediately.

The deed for the Ackerman property on which the village proposes to expand its sewage disposal plant has arrived. Village engineer David Miller is working on plans for this enlargement.

An estimate of the cost is awaited so a bond issue proposal can be placed before the voters.

675 Needy Children and Mothers To Spend 10 Days Near Camp Lake

CAMP LAKE, Wis.—Fun-filled vacations in the country are in prospect for 225 needy children and mothers from the city who will be the summer's first guests at the Salvation Army's Camp Wonderland July 5-15.

Six busloads of the campers will leave from the Army's Temple Corps, Chicago, bound for the camp located six miles northwest of Antioch.

Camp Wonderland will be host to an additional 450 mothers and youngsters—225 at a time—for 10-

day periods through August 5.

Some 160 golden agers will have their turn to enjoy the outdoor life from August 6 to August 16.

This will be the ninth summer that the seniors have vacationed at the camp.

In a special section of Wonderland—a wooded area called Camp Shagbark—approximately 165 Boy Scouts, and Girl Guards from the Army's Scandinavian division will camp June 27-July 4.

A SIMILAR group of 150 from the metropolitan division will camp at Shagbark July 11-18.

The two divisions will hold a combined music camp for 140 young musicians July 4-11 at Shagbark.

Throughout the summer, nearly 100 other boy Scout troops from the Chicago area also will enjoy Shagbark's facilities.

The initial phase of a long-term rebuilding and maintenance program is underway at Camp Wonderland.

The crafts building is being enlarged, and additional bedrooms have been built for use by members of the summer staff and by groups that hold outings at the camp during the winter.

New washrooms and showers have been installed in the Shagbark section, and restroom facilities for guests visiting the Hilltop section have been modernized.

A new cottage to accommodate 20 campers is under construction.

SUMMER VACATIONS in the country for the needy have been offered by the Salvation Army since its first fresh air camp was held at a farm near Glen Ellyn in 1904.

The present 70-acre rolling woodland location, acquired in 1924, is on County Highway ST at the edge of Camp Lake.

A big attraction for the campers is Center Lake with its opportunities for swimming, boating and fishing.

The recreational program also includes group games, hikes, picnics, campcraft, woodcraft, classes in swimming, handicrafts and nature study, stunt and amateur programs.

Also there are campfire and council ring sessions, outdoor band concerts, movies, trips to neighboring farms and overnight outdoor camping for the youngsters.

A large playground area has sliding boards, teeter-totters, swings and other outdoor amusement equipment, and a baseball diamond.

EIGHTY-SEVEN buildings, including cottages, cabins, recreation buildings, dining halls and other facilities, are scattered over the camp area.

Beneath towering trees, formal flower gardens provide a colorful contrast to the long stretches of well-kept lawns.

A modern nursery, with a registered nurse in charge, helps mothers in caring for infants and toddlers. Infants may be left in the nursery, and toddlers in the special nursery play yard so mothers can take part in camp activities.

Rescue Squad Answers Calls for Assistance

Antioch's Rescue Squad had its share of "business" last weekend and early this week.

Tuesday afternoon of this week William H. Boylen of Addison, Ill., was taken to the Antioch clinic from the Ferris farm on Beach Grove road. He apparently had a slight coronary.

Monday morning Thomas Verlin Bierbrodt of Maywood died in the Rescue Squad ambulance enroute to Victory Memorial hospital. He apparently suffered a heart attack.

Sunday the squad was called to Carroll's resort at 8:10 p.m., where Francine Blumer of Chicago was drowned.

Money Campaign For Project to Start July 24

Rev. Alfred J. Henderson, pastor of St. Peter's church, Antioch, has announced plans to conduct a fund campaign.

Purpose of the campaign will be to raise as much as possible of the cost of erecting a four classroom size addition to the Parish grade school, as well as building a new parish center.

The steady increase of Catholic families, with grade school age children has crowded the present eight classroom school building and the addition is necessary to meet this demand.

St. Peter's school was opened in September of 1949, with six classrooms being devoted to school use, and two additional rooms adapted for use as a temporary convent for the Sisters of Charity of the B. V. M. of Dubuque, Iowa.

In April of 1957, a new beautiful convent was completed and new classrooms were provided for the children.

But now, more classroom space is needed. Four hundred children attended the session just completed and an even greater number is expected in September.

"WE HOPE that the four classroom addition now planned will meet the anticipated parish needs in the foreseeable future," he said.

Remainder of the building program might best be described as a parish center. This term most aptly describes the new building because it will, no doubt, become the center of the parish sporting, social and recreational activities.

Built as a gymnasium, this structure will offer physical education facilities to children of the school and make possible the education of the "whole man."

Children of St. Peter's school now receive instruction in their faith to lead them to spiritual well being; instruction in the three "R's" to train their minds and facilities in the parish center will complete the picture by making physical education available.

There will be a full size basketball court, a roller skating track, shuffle board courts, ping pong tables and the many other accessories that will fill many leisure hours for the parishioners young and aged, children, teens and adults.

SERVING AS well to bring all the people to a happier and fuller life, this project will enhance the beauty of Antioch and make this famous resort area a finer place to live.

The entire program unfurnished has been estimated to reach \$300,000 in cost.

The campaign will be conducted by the men of the parish working as a committee in an effort to raise as much as possible of this amount.

A minimum goal of \$150,000 has been established and it is hoped that this amount will be exceeded by far.

Rev. Henderson heads the committee as honorary chairman with Rev. Francis L. Johnson serving as associate honorary chairman.

Acting as general chairman is Walker P. Lyons and as associate chairman, John R. Bajek, while Robert H. Berg is audit chairman.

LEADING THE seven divisions of men are Henry A. Apostol, Paul L. Chase, Edward P. Cranley, Thomas Haley, Jr., Harold J. Kelly, Emil J. Kubs, Eugene LaPlante and Clarence J. Schwab.

Each division is sub-divided into two teams and heading these teams as captains are Charles Cermak, Jr., Bernard J. Dost, Rudy Eckert, Vincent Enis, Charles J. Forster, Robert Hunt, William W. Hynek, Lawrence W. Lang, Joseph J. Matusek, Robert B. Reband, Frank Strochein, John J. Wells, Nicholas P. Zeien and Frank Zeman.

Volunteers on the teams are paired and will visit the homes of the parishioners as partners Sunday afternoon, July 24.

Tea Here July 15 to Honor Congresswoman

Mrs. Marguerite Stitt Church, congresswoman from this district, will be honored at a tea from 2 to 4 p.m. Friday, July 15, at the home of Mrs. W. C. Petty on Spafford street in Antioch.

All women are being invited to attend the tea and meet Mrs. Church.

Mrs. Church, a Republican, is seeking re-election to congress.

DEAR READER News Editorials

A Building 'Boom' Is Heard and Seen

News of the opening of the International Register Company factory in Spring Grove, plus such projects nearer Antioch as the new Illinois Bell Telephone Co. building and a new shoe store on the outskirts of town, bring to the eyes and ears progress that is being made.

Early estimates place the need for 300 to 400 workers at the building in Spring Grove, with an eventual employment of 1,000 to 1,400 people.

Reports have circulated that as soon as the present building is completed, work will start on another and possibly two more adjacent to this structure.

Telephone company officials insist the new building being erected on Lake Street will be one of the more beautiful structures in the village. If architect's drawings are any indication, Antioch will be very proud of it.

The sputter of trucks, working there and elsewhere in the area, hammers pounding out new walls and foundations, men walking over new boards and concrete to add something here and another object there — these are just a few indications of progress being made in Antioch and vicinity.

Lotus school is building a new addition and the B. J. Hooper school at Lindenhurst will be adding one soon.

Bids were called this week for an addition to the Antioch fire station.

St. Peter's school will add four new classrooms and a gymnasium if its campaign for funds succeeds.

And several firms are still looking over Antioch as a site for a factory of one kind or another.

Courthouse Notebook —

BY LOU DURKIN

Adlai Stevenson, who is still a strong possibility as the Democratic nominee for the Presidency, applied the gentle needle to his Republican neighbors of Lake County in his address to the Illinois State Bar Association last week.

Durkin

over the selection of delegates-at-large to the national nominating convention.

Witwer, as No. 1 man on the state ticket, understandably enough felt that he rated the prestige of being a delegate, but Gov. Stratton ruled that he should settle for alternate delegate and that was that.

Stratton showed that he was still "boss" of the Republican party in Illinois, but his treatment of Witwer and his naming of Lieutenant Governor John Chapman as an alternate delegate undoubtedly caused friction in the GOP that won't help in the general election in November.

Another interesting development during the convention was the spontaneous movement to draft Probate Judge Thomas J. Moran as Federal District Judge to fill one of two vacancies on the federal bench in Northern Illinois.

The draft movement was instituted by a group in the Lake County delegation headed by Helen Burke, Antioch precinct committeeman, and attracted attention from several other delegations.

Judge Moran insists he had no hand in the movement, but he didn't appear displeased with the activity in his behalf.

The current issue of Reader's Digest has an article of particular interest to Lake County communities faced with a growing sewage disposal problem.

The article deals with sewage disposal ponds that have proven successful in many areas at considerably less cost to the municipalities than sewage treatment plants.

The U.S. Public Health Service has surveyed the ponds and has placed its seal of approval on them.

It might be worthwhile for communities planning new sewage disposal systems to investigate the sewage pond possibilities.

The ancient battle over the location of the county seat for Lake County can be expected to be revived along with the development of plans for a new county building.

Actually it is doubtful if those who advocate moving the county seat to the geographical center of the county have any real hope of succeeding, but their concern with the location could become a definite block to the construction plans of the county board.

This concern with location might have received more solid encouragement in the days when a trip to the courthouse was a full day's undertaking, but the trip is hardly that difficult today... even with many roads undergoing extensive repairs and improvements.

That evening about 150 guests were entertained at a dinner and reception at Little Acres. Mr. and Mrs. Topercer at the reception presented corsages to their bridesmaids and flower girl of 25 years ago. Some people attending the reception traveled from as far as Indiana and Harvey, Ill. IT ONLY FEELS LIKE POWER STEERING

(Corvair doesn't need it)

Corvair's ingenious design simply places the engine in the rear. That means less weight on the front wheels and a lighter, happier feel in the curve of your hands. No power assist is needed in a car that's naturally nimble. See what a fresh engineering approach can do? From handling and parking ease right on, there just isn't anything ordinary or

conventional about Corvair. Look at its practically flat floor, four-wheel independent suspension, fold-down rear seat. Its air-cooled rear engine that never needs water or antifreeze or radiator repairs... and leaves engine heat and noise back where you've been. All these special advantages are standard in every Corvair. Just wait till you see how much

they add to your driving pleasure. But why wait!

They moved to their new home June 10. On the 11th, Debbie accidentally got bit on the eyelid while playing with a neighbor's dog, and had to have a stitch put in the lid and have three shots.

Dr. Joseph Tauchas of Lake Villa took care of her. Luckily, the dog had had his rabies shot.

Sunday, June 12, was Florence's birthday.

Ted is employed by Olson Rug company in Chicago. He has been there for 10 years. He enjoys fishing when time allows, but right now "time does not allow." Before building out here he used to fish at Petite lake.

Florence is looking forward to having a garden, and hopes the grass will hurry and come up when they plant it. Scraping mud off the children's shoes is keeping her busy.

Ted and Michael like baseball, but they are a little too young yet, to join our Little league team. Debbie loves to ring the door bell and keeps her mother hopping.

They have joined the Prince of Peace church and the children will attend Prince of Peace school.

Lotus School Job Underway

Lotus school district no. 10 is a beehive of activity these days with the construction of an addition well under way and plans for an election to name a seven-man school board scheduled for August 6.

Workmen early this week were in the act of building a floor for the basement of the addition with basement walls on at least one side of the addition already in place.

The new rooms will be on the south side of the present building. A census conducted by Lake county school superintendent W. C. Petty of Antioch concluded that the Lotus school district may have a seven-member board rather than three people as now.

A petition received June 1 by Petty from residents of the district asked for the census.

The census, Petty said, showed the school district to have a population of 1,008, which he stated, qualifies it under Illinois state law to have a seven-member board.

Applications for candidacy may be obtained from Supt. Petty with a July 16 deadline for filing for the office.

LAD AND DAD CAMPOUT

By Frank Roblin
Troop 92 Scribe

June 17-19 had a campout to Minnow Lake, Wisconsin, 152 miles from Antioch. We arrived at 12:05 a.m. Friday. That night we slept under the stars.

At 5:00 a.m. it started to rain so we all went in the cars except for the men. That morning we weren't very hungry, but that afternoon we ate 8 dozen eggs and 100 sausages. After we ate we went fishing.

That night we had a crackerbarrel. But instead of sleeping under the stars, we slept in tents. Like usual, it rained. Sunday we got up, washed and got dressed for church.

When we came back we changed and put our gear in the cars; then we went for a short ride and went eight miles.

We went through a valley and saw a cliff about 100 feet tall. When we came back we ate lunch and cleaned up camp and left for home.

L.V. Resident Hurt In Wisconsin Mishap

LAKE VILLA—A Lake Villa resident, Nancy Prebe, was reported hurt when a car in which she was riding last week struck a parked car on a Kenosha, Wis., street. Richard Henthorne of Kenosha was the driver.

Two suspects in an incident in which five men threatened a woman and pelted a car with beer bottles and rocks were questioned and later released by Kenosha city police. Police continued their investigation.

Police said one of the unknown quintet flashed a knife and threatened the Lake Villa girl with it.

Of the more than 6,000 expected drownings during 1960, the greater share will occur because the victims could not swim well enough to take care of themselves in an emergency.

Know what poison ivy looks like, also sumac and poison oak. Then when you do go into the woods be on the lookout for all three. Effective poison lotion may be carried along, but the best remedy remains avoiding contact. See a physician if you should get a severe or spreading case.

Escort Shows Europe

SECRET of seeing Europe is having an experienced linguist show you around, help you across frontiers, so you can relax, enjoy yourself. It's easy to arrange: See your travel agent or write for free 11-country escorted "Criterion Tour" folder to P. O. Box 1559, New York 17. Inclusive fares from \$747 for 35 days. Crossings by air or steamer from New York until Nov. 11.

For the Woman Who Values Her Time

VACATION TIME means three meals daily for mother. The days become busier and endless but this can be changed by using paper cups, plates and containers, now in such attractive designs. So, before summer gets on its way, start acquainting the family with paper. No conscience for the family in not helping with the dishes. For economy, buy from local paper wholesalers.

Car-Key Belt

IF YOU'VE EVER been locked out of your car, here's an item for you. A. Stein & Co., Chicago, has developed the Paris Car-Key Belt. The tongue of this beautiful leather belt becomes a duplicate of your car key. The handsome leather belt is available now at \$4.00 in men's stores throughout the country.

200 Years of Tobacco

WHEN he began snuff-making in 1760, Pierre Lorillard could never have dreamed that his one-man, Colonial New York "manufactory" would some day become the world's oldest, most experienced tobacco company. Celebrating its 200th birthday this year, P. Lorillard Company led Americans to snuff in the 18th century, just as its Kent Micronite filter recently led Americans, and the entire world, to milder, filtered cigarette smoking.

WITH THE outdoor living season coming up, it's time to shop for new picnic equipment. Be sure to see the attractively designed "Little Brown Jug" and "Little Brown Chest" manufactured by Hemp & Company, a division of The American Thermos Products Company. Your dealer will be happy to point out the exclusive quality features of extra ruggedness and high efficiency.

Europe After Labor Day

EXPERIENCED TRAVELERS say Fall is the time to visit Europe's cities, towns, villages, sights—when life is again normal! But first step, now, is to write to CIT Travel Service, 500 Fifth Ave., New York, for a "no-obligation" cost estimate. Tell them: "When," "where," "how long," whether you'll cross by steamer or air. Also whether in "economy," "medium" or "luxury" class.

Alert Motorists Look Out For Child at Play

Longer daylight hours mean increased
evening playtime for children
and the need for extra alertness
by homebound motorists, the
Chicago Motor Club's safety and
traffic engineering departments.

"Warmer weather and longer daylight
hours bring out the youngsters
in the late afternoon, and, unfortunately,
they are not always discriminating
as to their choice of playing areas," the club said.

Because a child busy with play is
seldom alert to the dangers of traffic,
it is the motorist's responsibility
to be especially alert for forgetful
youngsters.

It said that the danger is greatest
in cities during the evening
rush hour peak, because children
are most likely to be playing at this
time — many in non-supervised
areas.

The club urged drivers to remain
alert for such tell-tale signs as a
ball rolling from between parked
cars or a dog running across the
street.

It is essential that parents instruct
their youngsters in sound
pedestrian safety practices and urge
them to seek recreation in supervised
areas, not in the streets," it added.

Watch It Now!

This year's crop of bugs and bees
will be happy to share your vacation.
Some may conspire to prevent
your enjoyment if you happen
to invade their haunts. These include
chiggers, ticks, hornets, wasps,
and the ever-present mosquito.

Bee stings can be fatal to an allergic
person. Take no chances. See a physician
if marked swelling occurs.

Ticks are disease carriers. Remove
at once by gently pulling. Do not
crush.

Foil chiggers by rubbing legs and
arms with sulphur foam pads of
benzyl benzoate ointment. Don't
irritate a "chigger bite" by scratching.
The pest has departed.

Here are points for staying afloat
and alive: (1) know how to swim;
(2) know how to float, even with
clothes on; (3) swim with others—
never alone; (4) if possible, swim
in guarded waters; (5) wear a life
preserver if you are going boating
and cannot swim.

Little League Games Slated

Fans Are Urged To Visit Field 4 Nights Weekly

The Giants were leading the Antioch Little League baseball standings at the close of competition last Friday evening, followed by the Yankees and Dodgers, tied for second place.

In the first week of play there were a couple of real thrillers which wound up in a tie game and in a 5-4 finish.

While there are perhaps 15 or 20 parents out to see the games, each Tuesday, Wednesday, Thursday and Friday evenings at the Little League field in back of the Antioch Township library, league leaders feel more should attend.

"If you care to see some good Little League games, then you should come out to the Little League field in back of the library," they said this week. "All games start at 8:30 p. m."

"Come on folks and give the Little Leaguers some of your support, they sure deserve it."

"Just think how you would feel if you were one of those boys, or your own son was one of the Little League players."

"Well, we hope to see a lot of you folks out at the games from now on."

The coming week's schedule starting with Thursday, June 30:

June 30—Tigers vs. Sox.
July 1—Cubs vs. Yankees.
July 5—Tigers vs. Dodgers.
July 6—Giants vs. Cubs.
July 7—Sox vs. Yankees.
